DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests the features as recited in the claims. The following features are exemplary:

a first selector device connected all the time with at least one database source of material of an Internet-based environment, wherein the first selector device that accesses and searches the at least one database source of material and provides therefrom a first subset of identifications of items within the at least one database source of material at a highest hierarchical level, based on a first set of parameters corresponding to a first set of user preferences, further wherein the first selector device accesses and searches the at least one database source of material on a weekly basis to maintain the first subset of identifications of items up to date... and

a second selector device operatively coupled subsequent to the first selector device via the database of the playlist generator, wherein the second selector device searches the first subset of identifications stored in the database of the playlist generator at a lower hierarchical level based on a second set of parameters corresponding to a second set of user preferences, and provides at an output of the second selector device a second subset of identifications of items within the at least one database source of material, wherein the second subset corresponds to a playlist that is

used by a rendering device for a subsequent rendering of the items identified in the second subset.

Claims 1, 11 and 17 disclose similar claim languages, therefor they are allowed for the substantially similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
